

Lesson 2 - Hypothesis Lab Assignment

After completing the science lab, write a hypothesis for this problem statement.

What happens if you heat steam above 100°C?

| | 1 | 3 | 5 | total |
|------------|---|--|--|-------|
| Hypothesis | Unrelated to investigation, no cause (IV) and effect (DV) relationship. | Simply stated, predicts reasonable outcome, cause (IV) or effect (DV) is not given | Well stated, cause (IV) and effect (DV) are given. | |
